

Bill 124: how to maximize your settlement

As you've probably heard by now, OSSTF (*along with other affiliates*) have agreed to a process that includes a financial remedy through Bill 124. This process impacts members whose bargaining is governed by the *School Boards Collective Bargaining Act (the Bill 124 remedy)*.

If this describes your own situation, then you will most likely be aware that the remedy will result in permanent increases to your compensation (*applied to grids and wage rates*), with a retroactive payment for the 2019/2020 to 2023/2024 school years.

With that lump sum payment coming your way no later than June 10, we've put together an exclusive Bill 124 financial action plan especially for you:
